

To: All holders of an electricity supply licence

**Electricity Act 1989
Section 11A(1)(b)**

Modification of the standard conditions of all electricity supply licences

1. Each of the licensees to whom this document is addressed has a supply licence which has been granted or treated as granted under 6(1)(d) of the Electricity Act 1989 ('the Act').
2. Under section 11A(2) of the Act the Gas and Electricity Markets Authority ('the Authority')¹ gave notice on 14 November 2024 ('the Notice') that we propose to modify standard condition 31G.3A. We stated that any representations to the modification proposal must be made on or before 20 December 2024.
3. A copy of the Notice was sent to the Secretary of State in accordance with section 11A(4)(b) of the Act, and we have not received a direction that the change should not be made.
4. We received 29 responses to the Notice, which we carefully considered. We have placed all non-confidential responses on our website. Our response to these comments is set out in the accompanying decision document.
5. We are making this licence change and update to the associated Contact Ease guidance document because, currently, customers off-supply due to meter faults are not always able to contact their supplier outside of their suppliers' regular contact hours. We consider that it is critical for domestic customers without supply due to meter issues to be able to receive appropriate support from their supplier at all times as the party responsible for the meter.
6. The effect of the modification will be to activate the currently dormant requirement of SLC 31G.3A(c) for suppliers' enquiry services to be available 24 hours every day to receive enquiries from, and offer assistance, guidance or advice to domestic customers off-supply due to meter faults. A more detailed description of the reasons for, and effects of, this licence modification can be found in our accompanying decision document. This includes the updated Contact Ease guidance document, to which suppliers must have regard as per licence condition 31G.3E.
7. Where an application for permission to appeal our decision is made to the Competition and Markets Authority (CMA) under section 11C of the Act, Rule 5.6 of the Energy Licence Modification Appeals: Competition and Markets Authority Rules² requires that the appellant must send to any relevant licence holders who are not parties to the appeal a non-sensitive notice setting out the matters required in Rule 5.2. The attached Schedule 2 provides a list of the relevant licence holders in relation to this modification. Section 11A(10) of the Act sets out the meaning of 'relevant licence holder'.

¹ The terms "the Authority", "we" and "us" are used interchangeably in this document.

Under the powers set out in section 11A(1)(b) of the Act, we hereby modify the standard licence conditions for all electricity supply licences in the manner specified in attached Schedule 1. This decision will take effect from 1 August 2025.

This document is notice of the reasons for the decision to modify the electricity supply licences as required by section 49A(2) of the Act.
